7. Also available are Hydraulic Platforms for wheel chairs for aged / underprivileged persons.

● *COMPACT AND STURDY DESIGN...* ● *SAFE AND EASY OPERATION...*

An Elegant & Cost Effective Alternative to Conventional Elevators

Safety Features :

1. Overload by weight shall trip the MCB provided, so that levitator shall not operate.
2. Auto pressure Relief Valve is also provided in case of accidental hydraulic pressure increase, due to any overloading.
3. All hydraulic oil fittings are of imported German make, tested thoroughly for zero - leakage ensuring long repeated use.
4. The levitator shall not operate if the door is left open, due to electronic sensor device provided for the same.
5. All glasses are of standard reputed - make, duly toughened for safety against breakage.
6. Level switches, which are preset, are provided for auto-stoppage at the Ground & FF levels, at mere pressing of push buttons.
7. All controls are of 24 volts, DC for electrical safety in operation.

FULL CABIN DESIGN

WHEEL CHAIR / PLATFORM LIFT

Advantages Over Traction Lifts :

1. Minimum space is required for installation.
2. No headroom is needed for Lift Machine.
3. No pit is required at the base, Ground Level.
4. No complex Civil Structural supports are required.
5. Operational cost is less due to lower power consumption.
6. Short delivery and installation time needed.
7. Economical in erection and also in use.

● **TROUBLE FREE PERFORMANCE...**

● **EASE IN MAINTENANCE...**

Glidex Levitators are backed by more than two decades of expertise in the manufacture of High-End Industrial Lifting and Moving Equipments. These include various types of Conveyors viz. Belt Type, Roller Type, Hinged-Slat Type, etc. which are extensively used in Engineering & Automobile Industries, Packaging, Pharmaceuticals & Food Processing Industries.

GOODS LIFT
